MARCH SESSION

Last month's Leadership Sioux Center session was filled with SO MUCH great stuff! In the morning, groups presented their research on ways they feel we can market our community, showcase our amenities and attract people to visit Sioux Center. We spent the rest of the day learning about the many different industries that serve our community so well! From retail, to restaurants, to grocery, to manufacturing, to our local brewery. Thank you to all who partner with this program and are willing to share their story. It is so valuable for our participants!

Thank you to Gary Sides of Zoetis for presenting "Modern Ag in a Cancel Culture" and encouraging our ag producers to advocate for their profession! And it's always great to host several FFA groups from local and surrounding schools!

Kats rejoins Service Trucks International sales team

SIoux CENTER, IA – Service Trucks International (STI) and Tiger Cranes are please to announce that Cory Kats has rejoined the sales team as the Regional Sales Manager for the Midwest Region. Kats will manage STI and Tiger Cranes sales in North Dakota, South Dakota, Minnesota, Nebraska, Kansas and portions of western Iowa and Missouri.

Kats worked at Service Trucks International from 2011 to 2022, starting out prepping chassis and inspecting units before joining the sales team in 2016. In 2022, he left Iowa to pursue a career opportunity in Florida. With Kats' experience and knowledge, STI and TIGER Cranes are excited to have Kats back on the team working in the same region he previously worked.

Kats and his wife, Erica, have a 12-year-old son and make their home in Spirit Lake, Iowa.

If you have a question about STI trucks or Tiger Cranes, give Cory a call at 712-463-3033 or drop him a message at coryk@servicetrucks.com.

FCS To Build a New Grain Facility in Southeast South Dakota

Farmers Coop Society (FCS) -- The Board of Directors and Management of Farmers Coop Society is pleased to announce the construction of a state-of-the-art grain elevator in southeast South Dakota. The "Union Grove" elevator will be located 9 miles directly south of Beresford, SD, and one quarter mile East of I-29 Exit 38. The construction will start this March and will accept soybeans in the Fall of 2023.

Farmers Coop Society is committed to their South Dakota customers and their communities. "Building this new facility is a reminder of our commitment to our members and communities in this area. We are excited to expand further into southeast South Dakota and continue strengthening our relationships with producers, schools, FFA programs, and communities," says John McDaniel, CEO of Farmers Coop Society.

The facility will feature state-of-the-art technology and will be high-speed and convenient for customers. The site will consist of a 2.5 million bushel flat storage building and an unloading system capable of unloading grain at 30,000 bushels per hour. "We are excited about expanding our operations in South Dakota. The highlight of this facility will be speed and efficiency. We know that's a top priority for our customers, and we will deliver on that for them," says Tyler Farnham, Sr Director of Grain Operation. The Union Grove facility will be able to scale in, dump, and scale out

trucks in under five minutes.

The location was specifically chosen with future expansion in mind. It will allow Farmers Coop Society to further develop the site with plans to accept corn in the next few years. Union Grove will offer several services to growers as FCS plans on offering competitive grain marketing options, agronomy services and operations, and their feed service portfolios. Farmers Coop Society is a member-owned, full-service cooperative that prides itself on putting its members and customers first.

A 3D rendering of the location, specific location maps, and more information can be found on their website at www.farmerscoopsociety.com

Farmers Coop Society, a member-owned cooperative, has 10 locations across Northwest Iowa and Southeast South Dakota. FCS offers patrons agronomy, feed, and grain sales and services. They also operate the How-to-Building Center in Sioux Center.
